Final Program

Vitreoretinal Dry-Labs

12th May 2011

(Language: English/German)

“Ophthalmic Diagnostics, Technology and DryLab Education: Advances in 2011” is the title of the upcoming 13th VitreoRetinal Symposium 2011 in Frankfurt/Main.

The “VitreoRetinal Symposium” (**VRS**^{Plus+}) this year meets the “Retina Summit” lately organized by Professor Dr. Albert J. Augustin.

It will be organized in a beautiful new meeting venue (Westend Campus of the Wolfgang Goethe University, Grüneburgplatz 1, in 60323 Frankfurt/Main).

This meeting will give you the opportunity to get an update and the newest insights in essential topics as Visual Quality Measurements, Ultrasonography, OCT, a variety of Pars Plana Technologies and the integration of virtual reality education into different health care providing concepts.

Moreover, it will give you the possibility of a direct and intensive contact with many experts in the field during comprehensive dry lab educations sessions, courses and invited paper sessions.

Everybody's input either during interactive discussion periods in the lecture hall or by presenting a poster (size of no more than 120 cm wide and 120 cm high) or outside of the hall during coffee and lunch breaks or at the social events on Friday at the Knights Banquet & Spectacle at Castle Auerbach are extremely welcome and do indeed essentially contribute to the outcome and success of the meeting. In all sections, doctors and corporate sponsors are fully involved and encouraged to actively participate.

We very much look forward to getting together with you in May.

With kind regards

Yours sincerely,

Frank H. J. Koch, MD

Albert J. Augustin, MD

Stanislao Rizzo, MD

“Ophthalmic Diagnostics, Technology and DryLab Education: Advances in 2011” beschreibt die Thematik, auf die wir uns im Rahmen des 13. VitreoRetinalen Symposiums 2011 in Frankfurt am Main konzentrieren wollen.

Das **VRS**^{Plus+} begrüßt hierzu als Kooperationspartner Herrn Professor Dr. Albert J. Augustin, Karlsruhe und Professor Dr. Stanislao Rizzo, Pisa, Veranstalter des “Retina Summit”, der zuletzt in Karlsruhe im Jahr 2009 erfolgreich abgehalten wurde.

Das 13. **VRS**^{Plus+} wird erstmals in einem wunderschönen, neuen Veranstaltungsort (Campus Westend der Wolfgang Goethe Universität, Grüneburgplatz 1, in 60323 Frankfurt/Main) stattfinden.

Ziel ist es, ein Update über die aktuellsten Erkenntnisse im Zusammenhang mit Themen wie Visus Qualitätsmanagement, Ultraschall- und OCT-Diagnostik, verschiedenen Pars plana Vitrektomie-Technologien und mit der Integration der virtuell realen Ausbildung in verschiedene Diagnostik- und Behandlungskonzepte zu vermitteln.

Vordergründig für dieses **VRS**^{Plus+} wird der direkte und intensive Kontakt mit vielen Experten werden – sei es im Rahmen der Ausbildungs-“DryLabs” am Donnerstag, der Kurse am Freitagvormittag oder der interaktiven Diskussionsperioden der Vorträge ab Freitagmittag.

JEDER ist aufgefordert, aktiv an den Paneldiskussionen teilzunehmen und/oder eigene Beiträge in Form von Posterarbeiten einzubringen (maximal 120 x 120 cm Postergröße). Der Austausch wird wie gewohnt darüber hinaus rege während der Pausen und anlässlich des Sozialabends beim Ritterbankett auf Schloss Auerbach fortgesetzt werden.

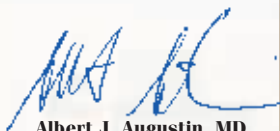

Jederzeit sind Ärzte und Partner der Industrie uneingeschränkt in alle Aktivitäten involviert und aufgefordert, sich mit aktiven Beiträgen einzubringen.

Wir sehen unserem Aufeinandertreffen mit großer Freude entgegen.

Mit kollegialen Grüßen

Frank H. J. Koch, MD

Albert J. Augustin, MD

Stanislao Rizzo, MD

Thursday, 12th May 2011

08.30 – 11.30 (180 min)

Surgeons:

How to handle a phaco/vitreotomy machine and the BIOM attached to different microscopes? (Hands-on-Technology)

How to perform injections?

(Practice Eye + Surgical Simulator Eyesi surgical)

Dry-Lab B

12.15 – 15.15 (180 min)

Surgeons:

How to start a PPV? Core PPV vs. 3-port PPV.

How to get the vitreous out, cause posterior vitreous detachment and perform "a peel"? (in Eyesi surgical)

Students and Teacher: How to look into the eye? (Diagnostic Simulator Eyesi indirect)

Dry-Lab C

16.00 – 19.00 (180 min)

How to reattach a retina and how to "deliberate practice"

= how to improve skills "sky high"? (in Eyesi)
